Jl. Sukun Rt03/04 no.96 Pondok Ranggon, Cipayung, Jakarta Timur

A fresh graduate in Informatics Engineering from UIN Syarif Hidayatullah Jakarta with a GPA of 3.35. Experienced in web development and data integration with proficiency in Java, Spring Framework, PHP, JavaScript, and SQL. Skilled in system analysis, coding, and database management to support business operations.

Internship Experiences

MTS Negeri 13 Jakarta - South Jakarta Feb 2023 - Aug 2023

Wordpress Developer Intern

- Create and design website requirements such as logo, layout design, and post design using WordPress and graphic design tools.
- Uploading websites to hosting, performing routine maintenance, and handling server issues when down.
- Optimizing website speed with caching and file minification techniques.
- Implement basic SEO to improve website visibility on search engines.
- Perform regular data backups and ensure security through plugin updates and website activity monitoring.

Rumah Sakit Haji Jakarta - East Jakarta Sep 2023 - Dec 2023

Full Stack Web Developer

- Held discussions with IT personnel to identify future information system needs at the Rumah Sakit Haji Jakarta.
- Developed a web-based information system in the form of hospital reports using the Laravel framework and MySQL as the database.
- Integrated the database from the old system to the new system to ensure a smooth transition of data.
- Worked closely with the development team and IT personnel to produce a solution that suited the hospital's operational needs.
- Perform unit testing, debugging, and performance optimization to ensure the system runs smoothly and efficiently.
- Implemented security features such as token-based authentication to protect patient data.

Education

Universitas Islam Negeri Syarif Hidayatullah Jakarta - South Tangerang Aug 2020 - Nov 2024

Bachelor of Informatics Engineering, 3.35/4.00

- Related Courses: Database Systems, Information Technology Project Management, Systems Analysis and Design, Advanced Programming, Platform-Based Programming.

Organisational Experience

Himpunan Mahasiswa Teknik Informatika (HIMTI) UIN Syarif Hidayatullah Jakarta - South Tangerang Jul 2022 - Aug 2023

Head of Organizational Division

- Supervise and monitor each work program run by each division, starting from the preparation meeting to the completion of the event.
- Lead coordination meetings between divisions to ensure effective collaboration in running work programs.
- Designing and organizing events aimed at strengthening relationships between Informatics Engineering students across generations.
- Organizing leadership training for HIMTI members to improve their ability in organizational management.
- Evaluate the implementation of each division's work program and prepare an annual evaluation report as a recommendation for future improvement.

Skills & Certification

- **Soft Skills** (2022): Problem-Solving, Leadership, Responsibility, Attention to Detail, Team Collaboration.
- **Programming Skills** (2023): Java, Spring Framework, JavaScript, Angular Framework, PHP, Laravel, SQL.
- **Tools** (2023): Visual Studio Code, NetBeans, XAMPP, MongoDB, Git, Trello.
- **Hard Skills** (2023): Data Mining, System Analysis, Microservices Architecture
- **Certification**  (2022): HIMTI certificate
- **Certification**  (2021): Java Fundamentals Certificate
- **Certification**  (2021): Java Foundations Certificate
- **Certification**  (2024): MySQL Certificate
- **Certification**  (2023): IoT Fundamentals: Big Data & Analytics Certificate
